MilPAC III

The MilPAC III is a transportable, deployable workhorse for C4ISR / C5ISR, GIS and Geospacial applications. Rugged aluminum and composite construction provides survivability in deployed environments 24/7 and the ruggedness to withstand transport handling on wheeled and tracked land vehicles, fixed and rotary winged air vehicles.

High efficiency thermostatic convection cooling and airflow systems result in a quiet, professional system at normal ambient temperatures that can also perform when the environment gets extreme.

Fully Rugged Construction

The MilPAC III is built to withstand harsh environments, transport handling on wheeled and tracked land vehicles, and transport handling on fixed and rotary winged air vehicles. Its rugged aluminum and composite construction provides survivability in deployed environments 24/7.

Serious Power

In addition to its highly rugged build, it packs some serious computing power with 3 full HD displays and high efficiency thermostatic convention cooling and airflow systems into an easily transportable package.

PROCESSORS

LATEST SINGLE/DUAL INTEL®
XEON, INTEL® CORE, AMD
RYZEN™, OR AMD EPYC™

GRAPHICS

INTEGRATED HD GPU
OR APPLICATION-SPECIFIC
GRAPHIC CONTROLLER

RAM

UP TO 1TB DDR4 RAM

DISPLAYS

TRIPLE 17.3" FULL HD 1920X1080

STORAGE

3X REMOVABLE STORAGE
DRIVES, UP TO 36TB

EXPANSION SLOTS

UP TO 7

POWER SUPPLY

1000W INTERNAL 110/220V
50/60HZ AUTO-SWITCHING
POWER SUPPLY, AC POWER
CORD, QUAD-FAN COOLING
SYSTEM

DIMENSIONS AND WEIGHT

FOLDED:
HEIGHT: 14.5" (368MM)
WIDTH: 17.125" (435MM)
DEPTH: 11.75" (298.5MM)

DEPLOYED:
HEIGHT: 14.5" (368MM)
WIDTH: 43.0" (1092MM)
DEPTH: 11.75" (298.5MM)

WEIGHT: ~65 LBS (29.5KG)

BUILT TO YOUR SPECS

Our in-house engineering and design team is able to create custom solutions, either adding modifications of our standard products or full custom designs. Our sales engineers will work closely with you to truly understand the problem, specifical certification requirements, quantity and schedule

QUALITY TESTED

We pride ourselves in our strict quality control and high standards. Our factory is ISO 9001 certified, and all units are thoroughly inspected and tested in the USA before shipment. Warranty is offered on all units.

ABOUT US:

With over 25 years of experience, we pride ourselves in creating unique computing platforms that are customized specifically for demanding applications. Our portable computers are built to support intensive applications, additional PCIe cards, large disk storage, and multiple displays. From graphic-intensive applications to high-density storage servers, our computers are used in a number of industries, including digital media & broadcasting, test & measurement, and government & military.
