

# MiPAC SRHD

The MiPAC SRHD (short for slim removable hard drives) is a portable system specifically designed for portability with high storage capabilities.

## **Semi Rugged Construction**

The MiPAC SRHD is manufactured specifically for use in military, aerospace, and government applications. All our military products have been tested to MIL STD 810G, 9103, and 461G. The heavy duty metal and rubber bumper corners allow it to sustain bumps and impacted blows. It simply can function in the hardest conditions.

## **Removable Hard Drives**

As the name implies, the slim removable hard drives (SRHD) are key in this unit. It comes with 4x 4 removable storage drives, allowing this unit to have up to a massive 80 TB of storage.
