

# NetPAC Lite

15.6" miniature portable workstation with 8 removable drives for up to 60 TB of storage.

## Miniature Size

As the name implies, the NetPAC Lite is very compact. In some fields, a large LCD and high resolution may be unnecessary. In this instance, the NetPAC Lite becomes a very viable option as it is lightweight (approximately only 16.5 pounds) and compact.

## High Storage

The NetPAC Lite supports up to 60TB of storage. Despite its small size, it is still able to hold massive amount of storage with 8 2.5" hot swappable drive bays. Its 3 expansion slots also allow this portable computer to be configured for specific applications, particularly in the network analysis field.

# Technical Specifications

<b>PRODUCT</b>	<b>NETPAC LITE</b>
