

NotePAC III Lite

Mil-spec laptop
with excellent performance
optimized for portability

The NotePAC III Lite is our triple screen portable computer with built-in hot swappable battery, ensuring seamless power transitions for continuous operation in any environment. It is a powerful but portable system. Unlike laptops that just lack the power and may require additional displays or other clunky addons, the NotePAC III Lite offers an all-in-one construction tailored to your needs. Compared to our NotePAC III Pro V, the compact design with integrated battery design not only reduces the overall weight but also enhances portability and efficiency, allowing users to tackle mission demands with greater ease.

The NotePAC III Lite combines exceptional performance with a lightweight design and flexible power options, making it the ideal solution for high-demand work scenarios. Whether in a command and control center or out in the field, the NotePAC III Lite supports your mission with unwavering reliability.

NotePAC III Lite

DISPLAY

3x 17.3" 144Hz FHD 1920X1080

CPU

Option 2: Intel Xeon D-2796NT processor

GRAPHICS CARD

Option 1: Intel UHD Graphic
Option 2: ASPEED AST2600

STORAGE

1TB + 2x 2.5" Removable Drives

EXPANSION SLOTS

1x PCIe x 16 slot

MEMORY

Option 1: 64GB DDR4
Option 2: Up to 512GB LRDIMM (with Xeon)

BATTERY

2x 14.4V, 6700mAh Battery

DIMENSIONS

HEIGHT: 6.0" (153MM)
WIDTH: 17.2" (437MM)
DEPTH: 13.2" (335MM)

Rugged Build

Battery

Backlit Keyboard

CAC Card Reader

BUILT TO YOUR SPECS

Our in-house engineering and design team is able to create custom solutions, either adding modifications of our standard products or full custom designs. Our sales engineers will work closely with you to truly understand the problem, specific certification requirements, quantity and schedule.

QUALITY TESTED

We pride ourselves in our strict quality control and high standards. Our factory is ISO 9001 certified, and all units are thoroughly inspected and tested in the USA before shipment. Warranty is offered on all units.

With over 25 years of experience, we pride ourselves in creating unique computing platforms that are customized specifically for demanding applications. Our portable computers are built to support intensive applications, additional PCIe cards, large disk storage, and multiple displays. From graphic-intensive applications to high-density storage servers, our computers are used in a number of industries, including digital media & broadcasting, test & measurement, and government & military.
